THE absolute purity of the Royal Baking Powder makes it pre-eminently the most useful and wholesome leavening agent known. Containing no lime, alum, phosphate, or other impurity, it leaves no alkaline or acid residuum in the food, and its use insures pure, light, and sweet bread, biscuit, and cake, that are perfectly digestible and wholesome whether hot or cold, fresh or stale. Its leavening power has been determined the highest whenever tested by official authority, and physicians, chemists, and writers on food hygiene commend it for its sterling qualities.

deveral cases of suspected cholers were reported to the Health Department to-day, but the officials have decided to withhold from publication all cases reported as suspicious until investigation is made. WALTING FOR THE STONING ON **OF NEW YORK**
